Surrey COVID-19 Summary

Cases and Rates

For more detail please see full report at www.surreycc.gov.uk/covidcases

All data is publicly available. Data is shown by specimen date - reporting delays mean data can be incomplete for the most recent days. For this reason the data shown is for the seven-day period ending four days prior to the publication date. The rate is calculated daily by Surrey County Council Public Health data intelligence team using the ONS 2019 mid-year population estimates. The 7-day average line on the chart is calculated using the average of cases for three days before, the date itself and the three days after any specific date. The average is not calculated for the most recent three dates as there is not enough data. For more detail please refer to the Surrey COVID Intelligence Summary at www.surreycc.gov.uk/covidcases and coronavirus.data.gov.uk

Change** ↑
New cases in last 7 days **5,570**
Rate for the last 7 days* **464.2**

Data shown for time period Tuesday 9 November 2021 to Monday 15 November 2021

*Rate represents number of cases per 100,000 population for the last 7 days
**Changes are relative to the previous 7 days (2 November - 8 November). If there is an increase of less than 10%, a grey arrow will indicate that the rate may have plateaued, but is not showing a significant rise or drop

Change**	Cases (7 days)	Rate (7 days)	% Change**	
↑	Tandridge	532	600.8	60%
↑	Elmbridge	822	599.1	46%
↑	Mole Valley	442	504.9	38%
→	Surrey Heath	416	466.3	8%
↑	Waverley	579	457.5	26%
↑	Spelthorne	454	454.6	15%
↑	Runnymede	394	436.2	22%
↑	Guildford	633	421.0	37%
↑	Reigate and Banstead	613	410.7	14%
↑	Epsom and Ewell	311	383.9	32%
→	Woking	374	374.0	10%
↑	Surrey	5,570	464.2	28%
↑	South East	40,059	434.6	22%
↑	England	214,289	378.9	12%

Local Covid-19 cases among highest nationally

Covid-19 rates across our district are currently among the highest in Surrey and nationally. Rates are particularly high in school age children and their parents.

Please help stop the spread of the virus by boosting your winter immunity. Get the flu jab and your Covid-19 booster and please:

- Let the fresh air in or meet outside.
- Wear a face covering in crowded spaces or on transport.
- Test regularly, at least twice a week.
- Stay at home if you are unwell.
- Wash your hands.
- Continue to use the Covid-19 app.

All children aged 12 to 15 are being offered a first dose of the Covid-19 vaccination. [More information](#) on the vaccination for 12 to 15 year olds is available.

Most 16 and 17 year olds have had their first Covid-19 vaccine. From Monday 22 November they can receive an additional second dose. Visit www.nhs.uk/Covid-Vaccination, or call 119 for an appointment. There are also walk-in options which you can find on www.nhs.uk/grab-a-jab.

Covid-19 booster jabs are now available for those aged over 40. The NHS will contact people directly to let them know when it is their turn to get their booster vaccine.

You can find out more on the [latest Covid-19 rates](#) on Surrey County Council's website.
