

## **Tatsfield Village Website Survey - Results Summary – Aug 2019**

The survey of Tatsfield Village Website visitors over a 4 week period in July/Aug 2019 resulted in a total of 54 responses. Recognising that not all visitors completed the survey, this low number follows the trend of less and less people now using websites of this nature for local information due to the popularity of social media, particularly Facebook and Twitter, with Tatsfield now having 3 Facebook sites and one Twitter account devoted to it. However, 85% of the survey respondents rated the Village Website as very or moderately useful with over half accessing the website an average of 5 times each month.

The most popular parts of the website were Calendar Events, the Parish Magazine and 'About Tatsfield', followed by the Neighbourhood Plan, Tatsfield History, Tatsfield Walks, St Mary's Church and the link to the Parish Council website.

Of the webpages devoted to the various societies in the village, the Bridge Club and the Horticultural Society were the most popular followed by the Art Group and the Tatsfield Village Club. 60% of respondents accessed the various Sports Club pages with the most popular one in this section being Martial Arts.

As far as the section on 'Useful Links' was concerned, Tandridge District was by far the most popular followed by Fly Tipping.

Thank you to those people who took the time and effort to complete the survey. It will form a very useful piece of input into the plans for the future.
